	<p>Traditionally strong, this ale is a unique beer with a similar malt profile to its more famous cousin Scotch whiskey. Roasted, unmalted barley provides a distinctive flavor. A thick creamy head and a beautiful red hue are two of the trademark results of its brewing process. Hopped just long enough to achieve balance with the malt, the end product is incredibly smooth with a finish that lingers. This brew was aged in a Dry Fly Distillery Whiskey Barrel. We are thrilled to be collaborating with this new distillery located in Spokane, WA. OG: 1.064</p> <p>3) Imperial Oak Aged Oatmeal Stout Lightly hopped, it is aged for one month to allow the medley of dark malts and oats to celebrate their union. There is just enough bitterness to balance out the malt. Chuckanut Brewery's Dunkel has won a total of 5 medals (4 Gold & 1 Silver) from the GABF, World Beer Cup 2010, and the NABA. ABV: 5% IBU: 22</p>
